The present issue of the Statistical Abstract of Andhra Pradesh is the seventh of its kind in the series and contains latest available data on various items of importance which have a bearing on the Economic Development of the State. I am sure that this publication will serve as a useful reference book in general and will be of immense use particularly to the Administrators and those engaged in Economic Planning and Development.

One table on Houseless and Institutional Population and four tables relating to the results of the 15th Round, Socio Economic Survey, 1959-60 have been newly added to this issue.

I thank the various Heads of Departments, both of the State and Central Governments, for their kind Co-operation in furnishing the data promptly. Any suggestions for the improvement of this Publication are most welcome.

Note:—The difference between Total I and Total II plus Total II plus Total III plus Total III is attributable to non-availability of employment, breakdown in Government and non-Government factories for certain states.

There may be slight differences in totals due to rounding up of figures. The data also includes the estimated employment in respect of factories not submitting returns.

Rough annual estimates of average daily employment for factories not submitting returns are 63 thousand in 1957, 184 thousand in 1958, 10 thousand in 1959 and 9 thousand each in 1960 and 1961.
